

REMARKS

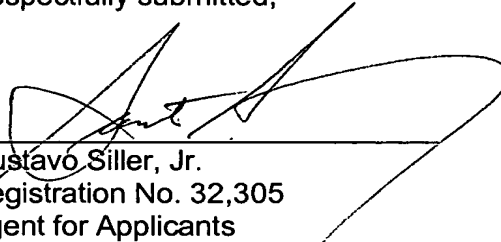

Summary

Claims 1-5 and 8-20 have been rewritten and Claims 21-29 added. No new matter has been added. The changes from the previous version to the rewritten version are shown with strikethrough for deleted matter and underlines for added matter.

Applicants noticed that in Figs. 1 and 4 and in the corresponding text, the numeral 12 was inadvertently used to indicate both the annular upper wall and the holding means. Applicants have herein rewritten the text and altered the Figs. 1 and 4 to label the annular upper wall as element 11a. Applicants have enclosed corrected versions of Figs. 1 and 4 with corrections marked in red as well as formal replacement drawings. Applicants request the Examiner approve the corrections. Applicants submit that no new matter has been added and that the changes embody merely the correction of formal matters in the specification and drawings.

Applicants respectfully submit that all of the pending claims are in condition for allowance. If for any reason the Examiner is unable to allow the application in the next Office Action and believes that a telephone interview would be helpful to resolve any remaining issues, he is respectfully requested to contact the undersigned.

Respectfully submitted,

Gustavo Siller, Jr.
